044

## SUMMARY

WRZA License Company, L.L.C. is the licensee of FM Broadcast Station WRZA, 99.9 MHz, Channel 260B, Kankakee, Illinois. In this proceeding, WRZA seeks an amendment to the FM Table of Allotments to permit it to change the city of license of WRZA to Park Forest, Illinois, an incorporated village with a 1990 Census of 24,656. Park Forest is notable in that it has been twice voted an "All-America City", and that it does not have a local broadcast radio station of its own. Despite the relocation of WRZA to Park Forest, Kankakee will continue to be served by one local full-time AM station and two local FM stations.

Herein, WRZA answers various Commission inquiries raised in the **Notice of Proposed Rulemaking**, and demonstrates that (1) the existence of short-spaced stations such as WGLC-FM, Mendota and WIXO(FM), Bartonville, both Illinois, should not bar the proposed reallocation of Channel 260B to Park Forest, because WRZA was not the cause of those short-spacings, (2) as a matter of law the **Huntington/Tuck** analysis does not apply here because WRZA does not serve the entire Chicago urbanized area, and in any event the Commission has licensed broadcast stations to communities in the vicinity of Park Forest such as Chicago

Heights, Crete and Lansing, Illinois, and (3) Park Forest is a substantial community in its own right, with its own community government, services, commercial establishments, industry and civic/religious/eleemosynary organizations, and is entitled under 47 U.S.C. §307(b) to have its first local aural broadcast outlet. Thus, the Petition for Rulemaking must be granted.

### TABLE OF CONTENTS

**COMMENTS IN SUPPORT OF  
NOTICE OF PROPOSED RULEMAKING**

WRZA License Company, L.L.C.<sup>1</sup>, licensee of FM Broadcast Station WRZA, Kankakee, Illinois (WRZA), by its attorney, hereby respectfully submits these Comments in support of the ***Notice of Proposed Rulemaking*** in the above-entitled matter, DA 99-2563, 14 FCC Rcd --, released December 15, 1999, and urges the Commission to amend its FM Table of Allotments, 47 C.F.R. §73.202(b), in the following respect:

Community	Present	Proposed
<b>Park Forest, Illinois</b>	- -	<b>260B</b>
<b>Kankakee, Illinois</b>	<b>224A, 236A, 260B</b>	<b>224A, 236A</b>

Further, WRZA requests that the Commission modify the license of FM Broadcast Station WRZA to specify Park Forest,

Illinois as its new community of license. In support whereof, the following is shown:

1. **Statement of Continuing Interest.** WRZA reiterates this statement, which it made in its "Petition for Rulemaking". In the event that Channel 260B is allocated to Park Forest, WRZA will file such application or applications, if any, as it is directed to file by the Commission to confirm its status as a Park Forest station. Upon a grant of this proposal and any required applications, WRZA would operate FM Broadcast Station WRZA on Channel 260B as a Park Forest, Illinois station.

2. **Documentation of "Grandfathered" Short-Spacings.** In paragraph 4 of the "Notice of Proposed Rulemaking" (NPRM), the Allocations Branch requested "that the petitioner document [that] each of the six short-spacings referenced [was in existence] prior to 1964".

3. According to ***Broadcasting & Cable Yearbook 1999***, at p. D-137, WRZA(FM) first went on the air on January 5, 1962. The Commission's records reflect that the station (originally called WBYG(FM), later WBUS(FM)) was granted an initial operating license on May 22, 1962 (File No. BLH-2043). WRZA(FM) has operated at its present Peotone,

---

<sup>1</sup>Successor in interest to Gene Milner Broadcasting Co., Inc., WRZA License Company, L.L.C. is a subsidiary of Z Spanish Media Corporation, a Hispanic-controlled media company.

Illinois transmitter site since construction pursuant to File No. BPH-10,390 was completed on September 27, 1978.<sup>2</sup>

4. The six FM Broadcast Stations listed in the NPRM were in existence prior to November 16, 1964 (the critical date specified in Section 73.213 of the Rules). Of these, WRZA(FM) was continuously "short-spaced" to co-channel stations WTHI-FM, Terre Haute, Indiana, WHFB-FM, Benton Harbor, Michigan and WJVL(FM), Janesville, Wisconsin and to first-adjacent channel station WSHW(FM), Frankfort, Indiana. With respect to the two second-adjacent channel stations licensed to Chicago, Illinois, WUSN(FM), 99.5 MHz, and WNND(FM), 100.3 MHz, both have operated atop the John Hancock Building since approximately 1971<sup>3</sup>. When WRZA(FM) relocated to its present transmitter site at Peotone, Illinois in 1978, WRZA(FM) was fully spaced with WUSN(FM) and WNND(FM) under the FM spacing rules which were effective at the time; that is, then-Section 73.207 of the Rules required second-adjacent channel Class B stations to be separated by 40 miles. The actual spacing between the WRZA(FM) site and the Hancock building is 68.5 kilometers,

---

<sup>2</sup>Source: **Mass Media Bureau Station History Cards**, microfiche "FM COMM 207".

<sup>3</sup>According to Commission records, WUSN(FM)'s original transmitter site was atop the building at 135 S. LaSalle Street, and WNND(FM)'s original transmitter site was atop the building at 230 N. Michigan Avenue; thus, when both stations moved to the Hancock building, both

or 42.57 miles. The *Report and Order in BC Docket No. 80-90*, 94 FCC 2d 152, 53 RR 2d 1550 (1983), increased the separation between second-adjacent channel Class B FM stations to 74 kilometers, or 46 miles. Thus, by administrative fiat, WRZA(FM) became "short-spaced" with WUSN(FM) and WNND(FM), although these stations are "grandfathered".

5. The table which appears at the top of the next page summarizes the facts relative to these "short-spacings":

---

moved several blocks north of their original locations (away from Kankakee).

---

Call Sign	City/State	Channel	Spacing (Actual/ Required)	Date First Operated on Present Channel
WUSN	Chicago, IL	258B	68.5 km/ 74.0 km	ca. 06-23-1947 <sup>4</sup>
WSHW	Frankfort, IN	259B	154.1 km/ 169.0 km	09-14-1962 <sup>5</sup>
WHFB-FM	Benton Harbor, MI	260B	141.3 km/ 241.0 km	10-10-1947 <sup>6</sup>
WTHI-FM	Terre Haute, IN	260B	206.9 km/ 241.0 km	ca. 10-27-1948 <sup>7</sup>
WJVL	Janesville, WI	260B1	193.8 km/ 211.0 km	ca. 09-18-1947 <sup>8</sup>
WNND	Chicago, IL	262B	68.5 km/ 74.0 km	ca. 07-30-1948 <sup>9</sup>

<sup>4</sup>*Broadcasting and Cable Yearbook 1999*, p. D-132, indicates that this station (original call sign WEFM), commenced operations in 1940; *Mass Media Bureau Station History Cards*, microfiche "FM COMM 237" reflects that this station was granted authority to move from 98.5 MHz to 99.5 MHz by telegram dated June 23, 1947.

<sup>5</sup>*Broadcasting and Cable Yearbook 1999*, p. D-149. This station originally operated with the call sign WILQ-FM; its initial covering license, File No. BLH-2222, was granted on August 27, 1962.

<sup>6</sup>*Broadcasting and Cable Yearbook 1999*, p. D-217. *Mass Media Bureau Station History Cards*, microfiche "FM COMM 267", reflects that this station received a Commission telegram dated September 23, 1947 to commence program tests, and that its initial operating license, File No. BLH-130, was granted January 21, 1948.

<sup>7</sup>*Mass Media Bureau Station History Cards*, microfiche "FM COMM 427" reflects that this station received a Commission telegram dated October 27, 1948 to commence program tests, and received its initial operating license, File No. BLH-601, on March 13, 1950.

<sup>8</sup>*Mass Media Bureau Station History Cards*, microfiche "FM COMM 302" reflects that this station (originally operated under the call sign WCLO-FM) received a telegram from the Commission dated September 18, 1947 authorizing program tests to commence, and the station received its initial operating license, File No. BLH-558, on January 9, 1949.

<sup>9</sup>*Mass Media Bureau Station History Cards*, microfiche "FM COMM 250" reflects that this station (originally operated under the call sign WFMF, with a call sign change to WLOO in the 1970s) filed an application for an initial license to cover its construction permit (File No. BPH-17) on July 30, 1948 (File No. BLH-197).

6. Documentation Regarding WGLC-FM and WIXO(FM)  
"Short-Spacings". The following are the facts concerning the remaining two short-spacing situations. WGLC-FM, Channel 261A, Mendota, Illinois, commenced broadcast operations on September 1, 1965 (**Broadcasting and Cable Yearbook 1999**, p. D-139). Channel 261A is a "pre-Docket 80-90" class A channel; that is, prior to 1985, this channel was used exclusively for FM stations with maximum facilities of 3 kilowatts effective radiated power (ERP) and antenna height 91 meters (300 feet) above average terrain (HAAT). The Commission's records show that WGLC-FM was granted a construction permit to increase its facilities to 6.0 kilowatts ERP and 100 meters HAAT at its present location on November 28, 1990 (File No. BPH-900904IB), and was granted a license in File No. BLH-911023KA on May 13, 1992.

7. When WGLC-FM went on the air in 1965, it was fully spaced to WRZA under the then-prevailing rules, as the transmitter sites for the two stations were over 105 kilometers (65 miles) apart. Today, WGLC-FM's transmitter is 110.2 kilometers from that of WRZA, or a short-spacing of 2.8 kilometers. A review of the "engineer file" maintained by the Commission for WGLC-FM shows that, in File No. BPH-900904IB, WGLC-FM's consulting engineer Donald L. Markley stated that it was WGLC-FM that wished to increase its power

to 6.0 kilowatts, but could not get the consent of WRZA (then known as WBUS(FM)) to operate non-directionally. Thus, to afford WRZA contour protection, Markley designed a directional antenna for WGLC-FM which limited the effective radiated power in the direction of WRZA to a maximum of 3.0 kilowatts.

8. WIXO(FM), Channel 260A, Bartonville, Illinois, commenced broadcast operations in February, 1997 (*Broadcasting and Cable Yearbook 1999*, p. D-129). This allotment resulted from a "Petition for Rulemaking" filed prior to October 2, 1989, MM Docket No. 89-331. **FM Table of Allotments, Bartonville, Illinois**, DA 91-1072, 6 FCC Rcd 5157 (August 30, 1991). In footnote 3 of DA 91-1072, the Commission specifically noted that:

The coordinates for Bartonville, Channel 260A, are North Latitude 40-44-20 and West Longitude 89-40-00. Because the petition which resulted in this allotment was filed prior to October 2, 1989, the applicants may avail themselves of the provisions of Section 73.213(c)(1) of the Commission's Rules with respect to Station WBUS(FM), Channel 260B, Kankakee, Illinois and Station WESZ(FM), Channel 261A, Lincoln, Illinois.

9. Station WIXO's present facilities of 1.5 kilowatts ERP and 178 meters HAAT from a transmitter site 14.5 kilometers short spaced to WRZA (coordinates 40-36-23 and 89-32-20) were granted in File No. BMPH-960906IA on February 3, 1997, and the station's initial covering license, File

No. BLH-970303KC, was granted on June 3, 1997. A review of this station's "engineer file" reveals that WIXO specifically requested contour protection processing pursuant to Section 73.215(c) in File No. BMPH-960906IA, in order to move its transmitter site some 14.5 kilometers closer to WRZA's Peotone site than is allowed by Section 73.207 of the Rules.

10. With respect to WGLC-FM and WIXO(FM), the short-spacings were created by them. WRZA should not be penalized because these two stations moved closer to WRZA.

11. Why the WGLC-FM and WIXO Short-Spacings Should Be Treated Like the Pre-1964 Grandfathered Short-Spacings. In a sentence, an attempt by the Commission to treat the latter differently than the former is to engage in a distinction without a difference. One of the cardinal rules of administrative law governing the Commission is a requirement for the agency to treat like cases in a like manner, and that it must have a rational basis should it seek to depart from the norm. *Melody Music, Inc. v. FCC*, 345 F.2d 730 (D. C. Cir. 1965). It is irrational and unfair to treat WRZA differently than the parties in *Oceanside and Encinitas, California*, 64 Fed. Reg. 54224, merely because parties out of the control of WRZA's predecessors in interest decided to avail themselves of either Sections 73.213 or 73.215 (or

both) to effectuate a permitted short-spacing. The precedents in *Oceanside and Encinitas* and in *Newnan and Peachtree City, Georgia*, 7 FCC Rcd 6307 (1992) should provide ample support to grant the relief that WRZA is seeking in its "Petition for Rulemaking".

12. In this case, there is no "new short-spaced allotment" being created. Channel 260B is short-spaced, and a station would be short-spaced if its transmitter site were located in either downtown Kankakee or in downtown Park Forest. The Kankakee reference point is closer to two stations with which WRZA is already short-spaced, WSHW(FM), Frankfort, Indiana and WTHI-FM, Terre Haute, Indiana, while remaining short-spaced to WHFB-FM, Benton Harbor, Michigan. There are no fully-spaced transmitter sites for WRZA to move to, regardless of where it could be licensed in northeast Illinois. Therefore, viewing the Table of Allotments from a common sense point of view, it makes no difference whether the allocation is in Kankakee or Park Forest; the station remains licensed at its transmitter site near Peotone, Illinois.

13. We note that, subsequent to the release of the NPRM in the instant case, the Commission has released an NPRM in *FM Table of Allotments, Beaumont and Dayton, Texas*, MM Docket No. 00-9, DA 00-79, 15 FCC Rcd - (released January

14, 2000) that the Commission is entertaining comments on allowing KXTJ(FM) to be relocated from Beaumont to the much smaller community of Dayton, Texas, which is between Beaumont and Houston. If the Commission grants the relief sought by the licensee of KXTJ(FM), it would be obligated to grant the relief sought by WRZA. However, irrespective of how the Commission rules on the KXTJ(FM) petition, it is obligated to grant the WRZA petition, because there is no difference between the relief requested by WRZA from that granted to the petitioners in **Newnan and Peachtree City** and in **Oceanside and Encinitas**.

14. The "Huntington/Tuck" Analysis Should Not Be Applicable in This Case. *Faye and Richard Tuck, Inc.*, 3 FCC Rcd 5474, 65 RR 2d 402, 407-08, ¶¶23-24 (1988), specifically states the following:

The **Huntington** doctrine is a limited exception to the usual Section 307(b) presumption that every separate community needs at least one local transmission service. Accordingly, we are reluctant to extend it beyond its original application—that of a central city and its contiguous suburbs.

\* \* \* \* \*

Because **Huntington** is an exception to Section 307(b), the party seeking to have us apply it against a competing applicant generally bears the burden of proof on this issue. . . . Thus, we recognize a community's presumptive need for local transmission service under Section 307(b) unless there is substantial evidence that the communities at issue are interdependent.

15. Park Forest is not a contiguous suburb of Chicago. We include as Exhibit A a Rand McNally map of the Chicago metropolitan area, which shows the southern boundary of Chicago and the boundaries of Park Forest; it shows that the nearest boundaries of Chicago and Park Forest are about 9.5 miles apart. Furthermore, the Chicago reference coordinates (47 C.F.R. §76.53) of 41-52-28 and 87-38-22 (Chicago's main post office, at the intersection of W. Harrison and S. Canal Streets)<sup>10</sup> are 26.9 miles away from Park Forest's reference coordinates (at its Village Hall), 41-29-07, 87-40-45.

16. Park Forest is adjacent to both Chicago Heights, Illinois and Crete, Illinois, where the Commission has in the past licensed commercial broadcast stations. According to *Broadcasting and Cable Yearbook 1999*, at pp. D-132 and D-133, Chicago Heights is the community of license of WCFJ(AM), 1470 kHz (commencement of operations on August 15, 1963), and WCGO(AM), 1600 kHz (commencement of operations on August 29, 1959); and Crete is the community of license of WYAA(FM), 102.3 MHz (commencement of operations on September 5, 1965). About six miles northeast of Park Forest is Lansing, Illinois, the community of license of WYBA(FM), 106.3 MHz (commencement of operations on August 28, 1961) (*Broadcasting and Cable Yearbook 1999* at p. D-138).

---

<sup>10</sup>Roughly three blocks south of Chicago's Union Station.

17. Simply put, it would be arbitrary, capricious and irrational to allow Chicago Heights, Crete and Lansing, Illinois to have their own broadcast stations, but to deny the similarly situated community of Park Forest, Illinois to have its own broadcast station. As noted in **Tuck, supra**, the presumption is that Park Forest is entitled to its own local transmission service. The burden of proof should not be on WRZA, but rather on any party who seeks the denial of WRZA's "Petition for Rulemaking".

18. Further, the instant case is unlike either **Huntington Broadcasting Co., Inc. v. FCC**, 192 F.2d 33 (D. C. Cir. 1951), **RKO General, Inc. (KFRC)**, 5 FCC Rcd 3222 (1990), or **Faye and Richard Tuck, Inc.**, 3 FCC Rcd 5374 (1988). **Huntington** involved a high-power Class II AM frequency that would serve Los Angeles as well as contiguous suburb Huntington Park, California. **RKO** involved 610 kHz in the San Francisco Bay Area, which would have provided city-grade service to both San Francisco and to Richmond, California, the community proposed by the challenger. Finally, **Tuck** involved the use of 770 kHz in the Dallas-Fort Worth metroplex, a frequency which could provide wide area service to Dallas and to Fort Worth, as well as its suburbs.

19. In the instant case, as the NPRM states at ¶6, WRZA provides city-grade service to less than 10 percent of

the "Chicago urbanized area". Unlike the frequencies at stake in *Huntington*, *RKO* and *Tuck* (which would have allowed for interference-free service to all or substantially all of their respective "urbanized areas"), 99.9 MHz does not and cannot provide service to all of the relevant "urbanized area". As the Commission's technical staff can readily appreciate, WRZA receives second-adjacent channel interference from two stations which operate from atop the John Hancock Building in downtown Chicago: WUSN(FM) on 99.5 MHz; and WNND(FM) on 100.3 MHz. Therefore, it is clear that a change in the community of license to Park Forest, Illinois is not a reallocation of 99.9 MHz to "the Chicago urbanized area".

20. The Eight Factors Enumerated in *Tuck*. *Tuck*, *supra*, 65 RR 2d at 409 (¶36), states eight factors used by the Commission in assessing "the interdependence of the specified community with the central city": (1) the extent to which community residents work in the larger metropolitan area, rather than the specified community; (2) whether the smaller community has its own newspaper or other media that covers the community's local needs and interests; (3) whether community leaders and residents perceive the specified community as being an integral part of, or separate from, the larger metropolitan area; (4) whether the

specified community has its own local government and elected officials; (5) whether the smaller community has its own telephone book provided by the local telephone company or zip code; (6) whether the community has its own commercial establishments, health facilities, and transportation systems; (7) the extent to which the specified community and the central city are part of the same advertising market; and (8) the extent to which the specified community relies on the larger metropolitan area for various municipal services, such as police, fire protection, schools and libraries.

21. To deal with the **Tuck** categories in a logical manner, factors 4 through 8 will be discussed first. Park Forest is an incorporated village under the municipal laws of Illinois. It was incorporated on February 1, 1949. Park Forest has a 1990 Census population of 24,656. Park Forest has twice in its history been named "An All-America City". Park Forest is governed by an elected seven member Board of Trustees consisting of the Village President and six Trustees. Park Forest's public services, which include police, fire, EMS service, health department, and parks and recreation, are administered by a professional staff headed by the Village Manager. Park Forest has its own post office and zip code (60466). Park Forest has its own schools, its

own public library, a Historical Society, its own performing arts center (Freedom Hall and Nathan Manilow Theatre), its own equity theatre, professional symphony orchestra and fine arts gallery, and more than 15 churches and synagogues. Park Forest operates its own water processing plant and maintains an industrial park (Source: Village of Park Forest, <http://www.parkforest.net/>).

22. Park Forest has at least 624 commercial and eleemosynary establishments (see attached Exhibit B, derived from the CD-ROM program **PhoneDisc Business Pro, 3d Edition 1996** published by Digital Directory Assistance, Inc.). With respect to media and newspapers, Park Forest does not have its own newspapers, but it is to be noted that the **South Suburban Standard** (published in neighboring Chicago Heights) and **The Daily Southtown** (with an address in nearby Tinley Park) serve Park Forest, as do the radio stations in Chicago Heights, Crete and Lansing noted above. However, given the fact that Park Forest is approximately 30 miles from Chicago's "Loop", and given the impressive number of commercial and eleemosynary establishments in Park Forest, there is an advertising market in Park Forest which is not served by the two major Chicago daily newspapers, the Chicago television stations or the high-powered Chicago

radio stations. As noted herein, Park Forest has comprehensive public services.

23. Thus, while some Park Forest residents may commute to Chicago (or other employment centers in the region), it can be seen that Park Forest has an impressive commercial base. Park Forest operates an Industrial Park, and Park Forest Plaza, described by the Village's web site as "one of the first regional malls in America, is being redeveloped into a traditional main street downtown", with a mix of retail and service establishments. Clearly, Park Forest is a separate and distinct community for Commission broadcast licensing purposes.

24. **Legal Considerations.** Clearly, the reallocation of Channel 260B from Kankakee to Park Forest, Illinois would be in furtherance of a "fair, efficient and equitable distribution" of broadcast frequencies, and thus would be consistent with 47 U.S.C. §307(b). Park Forest clearly is a community for broadcast station licensing purposes. See ***FM Table of Allotments, Willows and Dunnigan, California***, 9 FCC Rcd 1802 (1994), where the Commission stated "...As a general rule, if a community is incorporated or is listed in the U.S. Census, that is sufficient to demonstrate its status as a community for allotment purposes." Park Forest is as entitled to a transmission facility as are the nearby

communities of Chicago Heights, Crete and Lansing, Illinois.

25. The Commission has recently reallocated FM stations from one city to another pursuant to Section 1.420(i) of its Rules. See e.g. *FM Table of Allotments, Slidell and Kenner, Louisiana*, DA 97-1974, released September 19, 1997, 1997 WESTLAW 578005; *FM Table of Allotments, Farmington, Grass Valley, Jackson, Linden, Placerville and Fair Oaks, California, and Carson City and Sun Valley, Nevada*, 11 FCC Rcd 8117 (1996); *FM Table of Allotments, Willows and Dunnigan, California*, 10 FCC Rcd 11522 (1995); *FM Table of Allotments, Cadiz and Oak Grove, Kentucky*, 10 FCC Rcd 10785 (1995), recons. den., 11 FCC Rcd 22208 (1996); *FM Table of Allotments, Newnan and Peachtree City, Georgia, supra*; *FM Table of Allotments, Oceanside and Encinitas, California, supra*; see also *Television Table of Allotments, Johnstown and Jeannette, Pennsylvania*, 12 FCC Rcd 10300 (1997).

26. In particular, the *Slidell/Kenner* and *Johnstown/Jeannette* cases are on point with the instant case. In *Slidell/Kenner*, the Commission granted station WLTS-FM a reallocation of its Channel 287C1 from Slidell, a community which would continue to have one commercial broadcast station after the reallocation, to Kenner, a community "partially within" the New Orleans Urbanized Area

but without its own aural broadcast station. WLTS-FM did not propose a change in transmitter site, and therefore it would continue to provide Slidell with 70 dBu service, despite its relicensing to Kenner. In **Johnstown/Jeannette**, the Commission reallocated television channel 19 from a community in the Johnstown-Altoona television market [DMA] to a community in the Pittsburgh DMA, despite the fact that Johnstown's population was almost three times that of Jeannette (28,134 to 11,221), where the petitioner (station WTWB-TV) would continue to use its existing transmitter site.

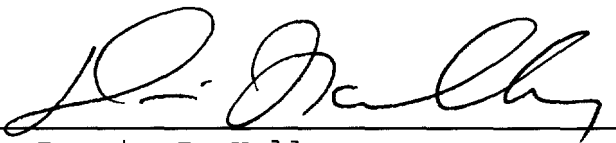

27. **Conclusion.** Park Forest, Illinois has no aural broadcast station at present, and the allocation of Channel 260B there would provide the community with a first local broadcast outlet, which is a primary objective of 47 U.S.C. §307(b). Indeed, the precedent in **Slidell/Kenner** requires the Commission to grant WRZA's "Petition for Rulemaking"; Kenner, an important New Orleans suburb which is home to the New Orleans International Airport, is much more integral to the New Orleans area than Park Forest is to the Chicago area. Since the public interest, convenience and necessity would be served by Park Forest obtaining its first local broadcast service of any kind, WRZA is entitled as a matter

of fact and of law to a grant of this Petition for Rulemaking.

**WHEREFORE,** WRZA License Company, L.L.C. urges that the Commission reallocate FM Channel 260B to Park Forest, Illinois.

Respectfully submitted,

**WRZA LICENSE COMPANY, L.L.C.**
